

Never alone

Up and up and down and down
To the ceiling, to the ground
Side and side and round and round
Listen to the newest sound
Up and up and down and down
To the ceiling, to the ground
Side and side and round and round
Listen to the newest sound

Never alone
Never alone
Please, dance with me
Please, dance with me

I'm feeling all alone
'cause all my friends are gone
Will you stay with me
Oh, we both could be
Friends
Giving each other our hands
Together we could do
This dance
Me and you

Up and up...
Never alone...

Now, here we are
So far
Me and you
We all together do
This song
Come and sing along
You know what we need
When we meet
One guitar to play
Then we may
Turn the amplifier on
If it works – we've won

Up and up...
Never alone...
